Upholding our Commitment

In support of its commitment to uphold human rights, KIK Holdco Company Inc. has policies and procedures, and has conducted several activities in 2023, to prevent and reduce the risk of forced and child labour in its operations and supply chain.

A) POLICY FRAMEWORK

KIK's commitment to upholding human rights is anchored into a policy framework, which includes a Code of Conduct, a Policy Statement on Human Rights, a Modern Slavery Policy and a Child Labour Policy. The framework includes a Whistleblower Policy and a hotline that allow employees to anonymously report concerns they may have. KIK's policy framework is periodically reviewed and updated to ensure it continues to appropriately address the risks as they may evolve.

B) SUPPLY CHAIN COMPLIANCE

KIK's policy framework is flowed down to its supply chain through its Supplier Code of Conduct. KIK employs a supplier risk assessment process and implements supplier terms and conditions that require its suppliers to uphold the same commitment.

C) IDENTIFYING AND ADDRESSING RISK

i. Identifying Risks

KIK implemented a risk screening process designed to proactively identify risks of forced and/or child labor in its supply chain. The risk assessment is informed by several factors, including industry and geography, and incorporates guidance from various governmental and non-governmental sources, including governmental information and guidance on Uyghur forced labor, supply chain research published by the U.S. Department of Labor.

The risk screening creates a tiered risk classification that allows KIK to prioritize and target its action to higher risk areas of its supply chain.

ii. Addressing the Risk

Having identified higher risk areas in its supply chain, discussions were initiated in 2023 with select supply chain partners to better detect and address child and forced labor risks. In some cases, changes to contract terms and conditions were negotiated and diligence efforts were expanded. KIK has also added internal controls to its worker recruitment practices.

Annual risk screening will continue to provide KIK with visibility to emerging risks, if any.

iii. Creating Awareness

To maintain awareness of its policy framework, KIK administered mandatory training to key employees on child labour and child labour risks and distributed and posted general awareness material in its facilities.

iv. Reporting

KIK encourages the reporting of any violation of its policies or Code of Conduct through various channels, including a third-party operated ethics hotline that allows employees to report concerns anonymously.
